

Desirable Qualifications

1. 9 year of Teaching and Research Experience as an Assistant Professor in an Accredited & Centre for Excellence Institute of National repute at

Dept. of Physics, **Patna Women's College**, Patna University
NAAC Re-Accredited – 'A' Grade of CGPA- 3.51 out of 4
'College with Potential for Excellence' (CPE) status accorded by UGC

2. Evidence of Ph. D degree with Post-Doctoral Research experience.

Ph.D degree awarded in **May 2008** (Thesis submitted in January 2008) by **Patna University** and **Post-Doctoral** Research Project Completed in May 2009 (One year duration, Fellowship and Financial Assistance was approved by **Nalanda Open University Patna**)

3. Evidence of Scholarly Research papers in Impact factor/ reviewed Journals and Proceeding and Contribution to Educational/ Curriculum development

Total no. of papers/ Chapter in a Book/ CPE abstracts/ M. Sc books (Total =2) published = 55
Total Citation=34 (In a 5 years)

4. Evidence of attracting Research Grants/ Projects from UGC/ Others and Demonstrated leadership of Guidance of UG Research & Growth in higher education in basic Sciences .

- I. UGC-Minor Research Project on ferrite Nanomaterials(Submitted by Nov.2013), Total no = 1
- II. Basic Scientific Research Project of UGC- Guided = 7
- III. College with Potential for Excellence status scheme of UGC-Research project Guided = 9
- IV. Post-Doctoral research project completed = 1

Total Project = 18

5. Evidence of Contribution to Educational /Research/ Learning through low Cost experiments, Couselling of teachers, Consulting services and participation etc.

- I. Engaging as **Resource person** in refreshers course/ Seminars /Conferences etc. Total no = 45
- II. No. of Conferences/ Seminars/ workshops, **Organized** = 39
- III. No. of Conferenes/ Seminars/ Symposium, Attented = 35
- IV. No. of Research papers presented in Conferences/ Seminars = 13

6. Evidence of Life membership of National and International Scientific Societies/Organizations/Academics, Total No= 07

7. Awards and Recognitions Total No= 06

8. Research Recognition at International level: Research findings from thousands of credible published sources by **Chicago, USA** - High beam research(highbeamresearch.com), One new finding in **Nanotechnology** reported by Rakesh Kumar Singh and co-authors is **getting large no of citations at International level and is being cited by peer reviewed referred journals published from large no of countries that include Poland, Romania, USA, China, Italy, etc.** Recently one more research paper on Ni-Zn ferrite Nanoparticles was also selected in among best 20 papers in **Evans Library of Florida Institute of Technology, Melbourne, Australia.**

9. Broad Areas Subject at Ph.D/ Post-Doctoral level =Solid State Physics/ Physics of Nanomaterials Priority Area of Research- Magnetic Nanomaterials, Photoluminiscent Nanomaterials

- 10. Best Practices:** I. Teachnig through low cost experiment & Nanomaterials Research
II. Bringing Scientific Values & Nuture Ethics among masses through Science & Technology Popularization

#. Join as Assistant Professor at Aryabhatta Centre for Nanoscience & Nanotechnology (University Deptt.), Aryabhatta Knowledge University Patna on 2nd Sep.2013

Research & Development / Teaching / Exposure programme Experiences

Constant training and self-improvement is an essential component of all skill enhancement Programmes e.g love for creativity and scientific curiosity. With this aim in mind I have attended following nature programmes to improve effectiveness as facilitators of Knowledge.

S.No	Nature of Training	Duration Year	Institutions where training was provided/ Organized by
1.	Innovative Method of Teaching Physics	15-21 June 2005	IIT Kanpur
2.	Master Resource Person of International Year of Physics-05, Proclaimed by United Nation.	6-9 Aug 2005	Institute of Physics (I.O.P) Bhubaneswar
3.	Innovative Method of Teaching Physics	2006	Angelika-IAPT, Patna and IIT Kanpur
4.	Nobel Laureates and Science Icons of European Union , Interactive Meet	8 th Feb 07	Vigyan Bhavan, Delhi/ Embassy of Germany and EU delegation, DST, Govt. of India
5.	Innovative Method of Teaching Physics	2007	IIT Kanpur
6.	Preparation of Self-Learning Materials: Methods and strategies (UG &PG level)	30th March 08	Nalanda Open University Patna
7.	Master Resource Person: International year of Astronomy-09, Proclaimed by United Nation	29 June-1 st July 2009	Guru Govind Dev Univ Amritsar/ DST, Govt. of India
8.	Winter School on Nanotechnology	24-27 Jan 2010	Nanotechnology Application Centre, University of Allahabad/IIT Kanpur
9-12.	Senior Resource person of Utsahi Physics Teacher Meet: A group evolved through IIT Kanpur Initiative Project ” for Revitalization of Physics Education in India under Guidance of Prof. H.C.Verma, Dept. of Physics, IIT Kanpur	29-31 May 2009, 4-6 June 2010, 6-9 June 2011 and 2012	St George College, Agra , Punjab University Chandigarh , Science College, Patna University , Homi Bhabha Centre for Science Education(HBCSE), Bombay
13.	Research Exposure for Innovative Teaching	24-26 Dec 2010	Centre for Development of Physics Education(CDPE), Univ of Rajasthan, Jaipur
14.	Post-Doctoral Research fellow in a Project – Magnetic behavior of some nanocrystalline Ferrites	March 2008- April 2009	Nalanda Open University Patna and Patna Women’s College, Patna University
15-16.	Orientation programme on “Motivational Skill” for Teaching	4 th Sep 06, 3-9Nov-12	Patna Women’s College, Patna University
17.	Orientation programme on “ The Amazing power of meditation for healing, Empowerment and Spiritual growth”	31 st Aug 05	Patna Women’s College, Patna University
18.	Participated as a One of the Expert (Resouece Person) in National workshop to “ produce a module on Appreciating Physics in everyday life and Physics for Consumer ”	13-15 June 2006	Guwahati, / NCSTC-DST, Govt of India and DST, Govt of Assam.
19-20.	DST-Lockheed Martin: India Innovation Growth Programe-2011 & 2012	21 st Jan 2011, 24 Jan 2012	Indo-Us, Science & Tech Forum, IC² Institute, Univ of Texas at Austin, DST , Govt. of India
21.	Training Progrmme on Research methodology	9 th Feb 2012	A.N. College, Patna, Magadh Univ, Bodh-Gaya

**Guided Research and Development Projects: UGC Sponsored under CPE and NAAC-
'A' Grade Scheme of UGC-India**

Following Projects at UG level were conducted as a **supervisor** under **Basic Scientific Research (BSR)** of NAAC –'A' Grade and **College with Potential for Excellence(CPE)*** status Scheme of **UGC, Govt. Of India**, at Patna Women's College, Patna University

S. No	Title of the Project	Year of Completion	Co-Guide if any	Name of the Scholar
1.	Synthesis and Study the effect of Annealing temperature on Structural & Magnetic properties of LiFe_5O_8 (Lithium Ferrite) Nanomaterials	2011 Basic Scientific Research	-	Vijeta Mishra and Rakhshan Noor
2.	Synthesis and Study of effect of size of divalent metal on structural and Magnetic Properties of MFe_2O_4 .	2011 Basic Scientific Research	-	Richa Sinha S. Kumari, Priya Tiwari
3.	Synthesis, Structural and Magnetic studies of Cu Substituted Cobalt Ferrite Nanomaterials annealed at 750°C.	2011 CPE*		Manisha Kumari , Divya Sharma, Trisha Raj,
4.	Low temperature synthesis of Ba-hexa ferrite Nanomaterials using Citrate Precursor Method	2010 CPE*	-	M.Wincet,K. D'Costa,Shanta Singh
5.	Structural and Magnetic study of Cu-substituted Cobalt ferrite Nanoparticles annealed at 650C.	2010 Basic Scientific Research	-	Adhishree Abha and Arpana kumara
6.	Magnetic properties of Zn and Ni substituted Cobalt Ferrite Nanomaterials	2009 CPE*	-	Sonam Perveen and Puja Pandey
7.	,Growth , Structural and Magnetic studies of Rare earth element Ce substituted Zn Ferrite Nanoparticles	2009 Basic Scientific Research	-	Anjali Kumari, Nancy Goenka,
8.	Synthesis, structural & Magnetic studies Ni substituted cobalt Ferrite nanomaterials using Citrate Precursor Method.	2009 Basic Scientific Research	-	Shubhra Kumari Farheen Hayat,
9.	Synthesis, structural & Magnetic studies Rare earth elements La and Ce substituted Sn Ferrite nanomaterials.	2009 Basic Scientific Research	-	Pinkey singh, Sonam Perween
10	Growth and Characterization of Nanosize CaFe_2O_4 by Nitrate reaction	2008 CPE*	Prof. Giraja Gupta	M.Khemka, A Kumari,Swati Singh
11	Science and Technology of Nanomaterials: A Basic study	2007 CPE*	Prof. Girija Gupta	M.Srivastava, K. sweta and Ritika
12	Synthesis and Characterization of Mn-Zn ferrite nanomaterials	2006 CPE*	Prof. G. Gupta	A..Shivani and R. Priya
13	Preparation of Low cost electronic Intercom	2005 CPE*	Prof. G. Gupta	Ajita Ojha et al
14	Study of colour radiation and Photosynthesis	2004 CPE*	Prof. G Gupta	Sneha Singh et al.

S.No	Title of the Project	Year of Completion	Co-Guide if any	Name of the Scholar
15.	Synthesis and effect of annealing temperature on structural and Magnetic study of Ni-Co/Cu ferrite nanoparticles	2012 CPE	-	Vijeta Mishra, Rakshan Noor and Priya Tiwari
16.	Synthesis and effect of annealing temperature on structural and Magnetic study of Ni-Zn ferrite nanoparticles	2012 Basic Scientific Research	-	Tarbia Jamil, Rashmi Kumari and Priya Kumari

Additional:

17. Post-Doctoral research Project(PDF): Completed in 2009

18.UGC-Minor Research Project on Rare earth substituted Ferrite Nanoparticles: Ongoing, ref no- F.PSB/11-12(ERO)- year-2012-13

Detail of : **College with Potential for excellence (CPE) and NAAC 'A' Grade Research projects at Patna Women's College, Patna University**

Patna women's College, Patna University is 'A' Grade institution with a cumulative Grade point average (CGPA) of 3.51 out of 4 and also College with potential for excellence status (CPE) status accorded by UGC. Under these status UGC has given special grant for inculcate scientific research temper among Science graduate students. Under **Basic Scientific Research (BSR)** and **College with potential for excellence status (CPE)** status scheme group of students (2 to 3 in a group) undertake research project in a specific area or topic under the supervision of a teacher in the department. The students collects data/materials, organize these and after analysis and inference, present their finding in the form of a written report under the supervision of teacher in the Dept. Subsequently they modify the content of their research and finding in the form of a research paper and a PPT presentation. A panel of judges evaluate the quality of research and the best presentations will be review by advisory committee and finally recommended their article for publishing in '**Explore**' journal, www.patnawomenscollege/explore and patnawomenscollege.in/IRIS

Impact Assessment of CPE and BSR projects of UGC-special scheme and Growth in higher education

It was my observation during research work carried out by UG students under the supervision of a teacher at UG level, new properties, new Science and new applications changed the temperament of the students towards learning/ creating knowledge. I remember few of the students, who were under my supervision and worked only for receiving certificate, later changed their outlook towards scientific research and learning and now they are working in Premier institutions of national repute. Most of the scholars of UG level go in for higher studies before they opt for any Job or placement. I have supervised total 16 UGC sponsored Research projects from Year 2004 to 2011 under CPE(College with potential for excellence accorded by UGC) Scheme.

Teaching Experience:

S. No	Title of the course taught	Post-Graduate(P.G) / Under Graduate level(UG)	No.of times taught
1.	Classical and Quantum Statistical Physics	P.G and U.G	9
2.	Physics of nanomaterials	P.G and U.G	5
3.	Magnetism and Current Electricity	U.G	9
4.	Special theory of Relativity	UG	9
5.	Central forces- Classical mechanics	UG	8

6. Mechanics, Waves & Oscillation, Electricity & Magnetism, Modern Physics, Heat & Thermodynamics and Modern Physics, Optics - of Class- 11th and 12th Level - 10 times

7. Revitalize Physics education in India through Innovative teaching methodologies. I have conducted more than 65 workshops of teachers/ students across the India as a **Senior Resource person** In IIT Kanpur Initiative Project On Innovative method of teaching Physics ' by Hon'ble Prof. H. C. Verma, IIT Kanpur

Research Project Detail :

1. CPE and BSR of UGC : Total =16 – Completed(Year- 2014 to 20112)

2. Post-Doctoral research Project: Completed in 2009

3.UGC-Minor research Project, Ongoing, ref no- F.PSB/11-12(ERO)- Year-2012

(Topic- Study of Composition and annealing temperature effect on structural , Electrical and magnetic properties of some rare earth substituted Ferrite Nanoparticles

Laboratory Experience (Teaching & Research)

1.Teaching and Research Laboratories: I have been working in setting-up research laboratories for synthesis of Magnetic Ferrite nanomaterials using chemical methods at Department of Physics, Patna Women's College and Department of Physics, Patna University at the Patna Science College campus. We use Magnetic stirrer, Digital balance, double distilled water purifier, Oven, Muffle furnace, Mortar-Pastel for synthesis for Citrate precursor of magnetic nanomaterials. XRD, UV-Visible spectrometer, Photoconductivity apparatus and LCR meter apparatus are being used in my lab for materials characterization. For our research, we take help of Mossbauer spectroscopy (at IIT Kanpur, Key Person – Prof. H.C.Verma), Photo luminescent spectrometer (at Nanotechnology Application Centre, Univ. Of Allahabad, Key person- Prof. Avinash C. Pandey) and Vibrating Sample magnetometer-VSM(National Physical laboratory- New Delhi, Key Person- Dr R.K. Kotnala).

In addition, I also developed low cost devices labs (+ 2, UG and PG level) at Patna Women's College under guidance of **Prof. H.C. Verma, Dept. of Physics, IIT Kanpur**. These experiments aim at conceptual understanding and observation of Physical phenomenon rather than verification of experiments described in text-book and attract attention of young minds and encourage them to ask relevant quotations. Such efforts help in developing creative thinking and make Physics learning interesting.

I have prepared 25 motivational PPT lecture (UG and PG level) on Golden decade of Modern Physics, Relevance and Contributions of Eminent Physicist, Appreciating Physics in daily life and Inspire Physics Education and Research as a Carrier for sustainable development of society. These lectures are very encouraging to P.G and U.G Physics student and faculty members which I used to groom the young minds for shaping the society.

2. Conducting laboratory courses: I am conducting **teaching** labs of UG and PG level that contains (1).Determination of acceleration due to gravity by Katers pendulum (2) determination of Mechanical equivalent of heat (J) by Joule's Calorimeter method (3) Determination of modulus of rigidity of the materials of the given wire by Warton's apparatus (4) Determination of the Elastic constants of the materials of the wire by Searl's method. (5) Determination of modulus of rigidity of the materials of the given wire by Dynamical method (6) determination of the frequency of an electrically maintained tuning fork by Melde's apparatus. (7) Verification of transverse vibration of string by Sonometer (8) Determination of the surface tension of water by rise in capillarity tube method. (9). Determination of the Young's modulus of the materials of the bar by method of bending. 10-15. Electronics & Optics Lab and More. On the other hand I have conducted **more than 65 workshops as a resource person** for Higher secondary School teachers & students / Research scholars on learning Basic Physics through low cost/ No cost experiments. These types of shows enhance the natural process of learning along with teaching-writing (teaching-writing and learning basic principle of Physics).

3. Using different type of Instruments:

1. X-ray diffractometer (XRD),
2. Vibrating sample magnetometers(VSM)
3. Photoluminescent spectrometer (PL)
4. LCR meter
5. U-V visible spectrometer

Computational: IBM Personal computers (Laptop and desktop) **Software:** Windows based software: X'Pert plus, Origin, PDXL software, MS office, Linux based Openoffice, etc.

Life Membership / Linkage of Learned Societies

1. Society for Scientific values, Delhi-Coordinated by Padam Sri, Prof. K.L.Chopra, Ex-Director, IIT Kharagpure

Objective: To promote objectivity, Integrity and Ethical values in all pursuits of Scientific research, Education and management

2. Science for Society Bihar, Member-NCSTC network, New Delhi.

Coordinated by Prof. S.P.Verma, Ex-University Prof. &Head, Deptt. Of Physics, Science College, Patna University State level organization for producing Science & Technology Communication

3. The Art of Living foundation, India-Founder- H.H Sri Sri ravishankar

Spiritual organization of international level for Peace, Harmony, foster ethical values and spiritual growth

4. Magnetic Society of India (MSI), Hyderabad

National organization to promote , encourage & Develop the growth of Magnetic materials, Components and Devices.

5. Utsahi Physics Teacher Group- of Prof. H. C.Verma, I.I.T Kanpur

A group of teachers of India that advocates for experiment-assisted Physics teaching and trained by Prof. H.C.Verma, Dept. of Physics, IIT Kanpur(www.utsahiphysicsteachers.com)

6. Indian Association of Physics Teachers and Anvesika,

National level organization of Scientists, Teacher, Technocrats for Physics Education and its development **7.Indian Science Congress**

#. Awards/ Recognitions/ Honours/ Distinctions

1. Recognition of **Senior Resource Person** of Utsahi Physics Teachers, Coordinated by By Prof. H. C. Verma, Dept. of Physics, IIT Kanpur, www.physicsteachers.com in 2009.

2. Selected by **DST, Govt of India**, in an **International Interactive meet of Noble Laureates and Science Icons of Germany, Europe and India**, on the topic **“Motivation of Youth in Science and technology” On the Occasion of India- European Union Ministerial level Science Conference, Organized by:- DST, Govt of India, Host:- Deptt. of Science and Technology**, Embassy of Germany in New Delhi, European Union(EU) delegation of EC in India. **Time-1000-1730hrs; Date- 8th Feb 2007; Venue- Vigyan Bhavan, New Delhi.**

Basis of selection:- interest in Research- Teaching and Scientific activities.

3. **The Master Resource Person (MRP) of International Year of Physics(IYP)-2005 Proclaimed by United Nation.** The training programme was held at Institute of Physics **Bhubaneswar** and Organized by **DST, Govt. Of India**. I was nominated as a The Master Resource Person (MRP) by BCST-DST, Govt. of Bihar and Science for Society- NCSTC network, Delhi

4. **The Master Resource Person(MRP) of International Year of Astronomy(IYA)-2009**, proclaimed by **United Nations of its 62 general assembly**. **Training programe was held at Gurunanak Dev University Amritsar**, and Organized by **DST, Govt. Of India**. I was nominated as a The Master Resource Person (MRP) by BCST-DST, Govt. of Bihar and Science for Society- NCSTC network, Delhi.

5. Young Scientist award: In 1st Global Bihar Science Conference (7- 9 May 2008, held at Patna Science College, Patna University) by Screening committee of Global Scientific council of B.Brain Devlopment Society, An International forum of Scientists, Academicians, Technocrats, Industrialists of Bihar origin. Prof. J.Thakur, Ex-Vice Chancellor, Patna University, Prof. Dolly Sinha, Principal, Magadh Mahila College Patna and Bibhuti Bikramaditya were the Chairmain, Convener and Secretary respectively of this International Conference.

6. One of the Expert in National workshop to “produce a module on Appreciating Physics in everyday life and Physics for Consumer” at Guwahati, Date –13-15 June 2006, Organized by- NCSTC-DST Govt of India and DST, Govt of Assam.

7. Appointed as a Coordinator in a programme – **“Vigyan ke teen sopan” Khoj, Sodh Aur Bodh, Indo-German Initiative**, A Countrywide Programme on Research and Devlpment popularization built around an exhibition train – **Science express** (A journey in to the future of Scientific discovery) at Patna. This Science express train was developed by **German Plank Society, Govt. of Germany** and DST, Govt. of India., Organized by :- NCSTC-DST, Govt. of India, Science For Society Bihar. Date:-26-29 December 2007. The main purpose of this train is to create awareness about Science education & Research among general public and academiciains/ students. On this occasion I have visited various higher education institutes(one month compaigning) in Patna for visiting this Science Express train and organized career orientation session in R&D, and Guest lecture on cutting edge research at Patna Railway station for 3 days. **Nearly more than 1 lakh people visited this Science express train**

8. Research Committee (Managing Editor) member of the Journal (1). IRIS: Journal for Young Scientists, ISSN. 2278-6384(Online); ISSN.2278-618X(Print). Web-patnawomenscollege.in/Journal-IRIS (2). Explore: Journal of Research for Undergraduate and Post-Graduate students, ISSN. 2278-6414(Online);ISSN. 2278-0297(Print); Web-patnawomenscollege.in/Journal-Exploe

Demonstration method of Lecture: Innovative Method of Teaching Physics

Senior Resource Persons of Utsahi Physics Teachers

(A group evolved through IIT Kanpur Initiated Project on Innovative Physics Teaching)

Coordinated by Prof. H.C.Verma, IIT Kanpur, www.utsahiphysicsteachers.com

For Revitalization of Physics Education through Innovative Teaching Methods

*Senior Resource Persons of Utsahi Physics Teachers Group

Prof.. H.C.Verma, Dept. Of Physics, IIT Kanpur, Prof. M.S. Marwaha, Punjab University Chandigarh, Dr. R.K. Awasthi, St. George College Agra , Dr. Amit Jana, Kolkata, Dr. R.K. Mitra, Mt. Carmel College Lucknow, Dr. Sateesh Yadav, Hardoi, Shri Amit Bajpai, IIT Kanpur, **Dr. Rakesh Kumar Singh, Patna Women's College**, Shri Brajesh Dixit, Orraiya, Dr. Ajay Mahajan, Latur, Dr Laxmikant Sharma, Pilibhit, Dr. Amarendra Narayan, Patna University, Ms Smita Fangaria, Noida, Dr. Brajesh Pandey, IIT Kanpur.

_Nature is beautiful and understanding it, from quarks and leptons to Galaxies, is even more beautiful. Learning Physics and sharing it with students and fellow colleagues is an exciting experience and also a great challenge. Through workshops on Physics experiments, Science shows, Teacher's training Camps and numerous other activities, Utashi Physics Teachers are spreading the fragrance of Physics learning thrill among students and teachers from middle school to Postgraduate level. **This group has been coordinated by Professor H. C. Verma, Dept. of Physics, IIT Kanpur.** He is Professor of Physics at IIT Kanpur and is constantly interacting with Physics teachers at school and college levels towards making Physics Teaching interesting and more meaningful. From these interactions, this group of highly motivated teachers has evolved which we call “Utsahi Physics Teachers.

Senior Resource Persons (SRP)

These are Physics teachers who have attended several NWUPTs(National workshops of utsahi Physics teachers) and are very active in training other teachers in Physics Teaching Workshops in their regions. These persons are highly committed towards education and spend significant amount of time in conducting workshops, contacting teachers, generating funds and so on. This is in addition to their regular institutional duties.

Prof. H.C. Verma, Dept. Of Physics, IIT Kanpur delivering lecture on Revitization of Physics Education in India & Low cost demonstration Experiments by Dr. R.K.singh and Dr. A.narayan, SRP'S of Utsahi Physicst teachers

There are altogether **15 SRP'S*** . In each year there is SRP'S meet and Research exposure camp is being organized for upgradation for teaching- research, across different part of the country i.e It was held at IIT Kanpur, Univ. of Allahabad, Univ. of Rajsthan, Jaipur, BIT's Pilani, HBCSE- Bombay, Science College, Patna univ, that is dedicated to Science Education in general and Physics Education in particular within India. **Such meet is a part of nationwide effort to renew the interest of students/ teachers in science through innovative methods.**

Science Teaching at present begins at quite early stage in school education and each important concept is visited several times during the period the student is going through his/her education. In spite of this, it is found that the understanding of science among the average students is very poor. Most of the learning that the students are doing can be termed at best as rote learning or learning without proper conceptualization. The ground reality is that most students go through the motion of education without any practical hands-on experience connected with whatever they have studied in their books. They have not been taught that science is intimately related to their life. Such students will be lacking in their ability to apply their knowledge in real life situations because they have not internalized whatever they have learnt. This situation is appalling. Students go through the motions of science education without grasping the meanings. During the whole process of education, the students hear, watch, read, absorb and in most cases accept everything unconditionally. On the other hand, true science education should involve *observing, questioning, critically examining, correlating, getting challenging ideas* and *experimentally verifying* them as far as practicable. The proposed session aims to train teachers/students in teaching-learning methods involving use of simple low-cost experiments for stimulating the interest of students and getting them into the mode of active enquiry conducive for concept learning.

There has been a general deterioration in the level of understanding of science in India although many research institutions have been established natio-wide. This can be attributed to a lack of scientific culture. I present here a very effective method that creates interest in science, especially Physics with help of Low-cost / no cost experiments. These experiments take five to ten minutes to perform and have great pedagogical value. We have demonstrated these experiments under various situations including regular classrooms/ special lecture session. We have found that when combined with right type of questions, they are very effective tools for concept-building and interest generation in Basic Science and Scientific Research. **Examples**

Demonstration of Electromagnetic damping: Electromagnetic damping is the slowing down of a moving magnet near a conductor due to induced currents. This can be demonstrated by using a strong magnet and an Al-tube. The Al-tube is kept vertical. When a strong magnet is released inside the tube from the top, it is observed that the magnet takes considerable more time to fall through the tube compared to what a non-magnetic body will take to fall through the same tube. This slowing down is due to the eddy currents produced in the Al-tube due to electromagnetic induction when subjected to moving magnetic field. This magnet in turn experiences a force that opposes the relative motion.

I Conducted class with the help of these type of many low cost/ No cost experiments and have attracted attention of students and encouraged them to ask relevant questions in basic science. Such efforts help in demystifying Science, developing Scientific thinking in students and create Physics learning interesting.

Low Cost Optical Bench:

We have made several Low cost optical Benches and its different components using which a number of optics experiments can be carried out. It consists of an Aluminium rail about 1.0 m long over which different elements such as concave or convex lenses, variable width slit, double slits, concave mirrors, screen, candle stand or electric bulb, etc. can be placed according to the requirement of the experiment. We have tried several different experiments with this optical bench. It is also very handy for classroom optics demonstrations.

.# Detail of Book Published : Physics of Nanomaterials, M.Sc course, Part 2, Published by Nalanda Open University, Patna ,1st Ed. 2009, pp. 1-264, Paper -11

Contents: Unit 0- Nano-Science: An Overview

Unit1- Free Electron theory

Unit2- Band Structure

Unit 4- Quantum Size effect

Unit5- Quantum dots

Unit 6- Quantum wire

Unit 7- Characterization tools for Nanomaterials

Unit 8- Photoluminiscent and Raman effect

Unit 9- Methods of preparation of Nanomaterials

Unit 10- Technological Applications

Detail of Book Published : Statistical Physics, M. Sc course, Part 1, Published by, Nalanda Open University, Patna ,1st Ed. 2009, pp. 1-148, Paper -4

Contents: Unit 1- Statistical Physics: Introduction

Unit 2-Phase space : Ensemble

Unit3- Density matrix

Unit 4- Ising model , Unit5- Phase transition

#. Books chapters written:

54. Thermal, Structural, Magnetic and Photoluminescence properties of Cobalt ferrite nanoparticles, JTAC-Springer,Vol.110, No.1, DOI 10.1007/s10973-012-2728-1

55. Thermal , Structural and Magnetic study of Sm-Fe Garnet nanopowder, accepted, Springer-JTAC(20013)

I have studied several aspects of the magnetic behavior as well as structural characteristics of nanocrystalline ferrite materials including zinc ferrite, barium ferrite, Strontium Ferrite and Nickel-Zinc mixed ferrites . I have synthesized $ZnFe_2O_4$, $Ni_xZn_{1-x}Fe_2O_4$ spinel nanomaterials and $BaFe_{12}O_{19}$, $SrFe_{12}O_{19}$ hexaferrite nanomaterials using citrate precursor method. In this method, generally, nitrates of all the cations (the divalent metal(s) and the trivalent Fe) are taken in stoichiometric proportion as starting materials. Aqueous solutions are prepared separately and mixed together along with suitable amount of citric acid. The mixture is heated in an oven and then dried so that it forms a brown color citrate precursor. This precursor is annealed in a muffle furnace at specific temperatures at which it gets thermally decomposed to give ferrite nanoparticles of different size. This ferrite powder is characterized for structure determination using XRD, for magnetic behavior using VSM and for ionic distribution and superparamagnetic fluctuations using Mossbauer spectroscopy.

In my work, I prepared Zinc ferrite in which the precursor was annealed at 450°C and 650°C and Nickel Zinc ferrite ($Ni_{1-x}Zn_xFe_2O_4$; $x = 0.2, 0.4, 0.5, 0.6$ and 0.8) annealed at temperature 450°C only. In the case of Zn ferrite we obtained pure phase (as per ICDD data). The magnetic properties measured using VSM were observed as particle-size dependent. We also observed a slight decrease in particle size on store the ferrite samples about an year at room temperature. The five samples of Ni-Zn ferrite containing Ni in different proportions, were annealed at same temperature showed different particle size. The magnetic properties as well as particle size were observed to depend on relative proportion of Ni and Zn. The maximum saturation magnetization was found to be 52.18 emu/g. The lattice parameter has a tendency to decrease with increase in the proportion of Ni but I did not get a linear relation as had been reported for the case of bulk ferrite. The Mossbauer spectrum shows that Fe ions occupies both the A and B sites in the sample and superparamagnetic fluctuations are not significant. **However, the B_{hf} values of the sextets in the spectrum (47.6 T and 43.5 T) are less than the values expected for bulk samples (50T to 55 T) indicating the fact that the particles are in nanosize but the blocking temperature is above room temperature.** The XRD peak broadening for this particular sample gives the average particle size to be 18 nm consistent with the reduced B_{hf} . We have also synthesized some hard ferrite samples (hexaferrites) We prepared pure phase and mixed phase strontium ferrite (annealed at 450°C). We observed a change in retentivity that seemed independent of magnetization. This behavior suggests non-stoichiometric preparation as a possible route for engineering samples for a particular set of magnetic parameters values. An annealing temperature 600°C was used to obtain Barium hexaferrite nanoparticles. At this annealing temperature we prepared hard ferrite sample that has a relatively high coercivity of 196.02 Oe as well as small particle size (32 nm). The sextet in its Mossbauer spectrum with line width of 0.2816 suggests that the sample is in single phase and the relative line intensity (3:2:1:1:2:3) suggests that the magnetic particles are randomly oriented. Many different processes have been used by various groups for preparing Barium hexaferrite. In all these a high annealing temperature is required. The samples prepared using citrate precursor method by us gave good results at relatively low annealing temperature. We observed 32nm particle size of Barium hexaferrite in sample annealed at 600°C temperature.

In continuation of my Doctoral work I have also studied Photoluminescence in soft and hard ferrite particles. I have prepared rare earth elements (La, Ce and Sm) substituted soft and hard ferrite nanomaterials and studied their structural and magnetic properties. We observed that large ionic radius rare earth ions creates stress in crystal and additional phases emerge as magnetic properties undergo drastic change. My other post-Ph.D. works include Thermal-kinetic, Structural and Magnetic studies of Chromites and Alumunates.

Detail : Training Programmes for work efficiency and creating interest in Science Education and Research.

The work efficiency of teaching-learning and quality improvement is developed through orientation programmes. I have attended 16 such orientation programmes at Patna Women's College and outside too, e.g. Institute of Physics Bhubaneswar, IIT Kanpur, G.D. University, Amritsar, Patna, Guwahati, Delhi, Jaipur, Allahabad, Chandigarh and Agra etc. A brief description is given below.

#. I worked as a **Post-Doctoral Research Fellow** in Project titled "Study of magnetic behaviour of Some Nanocrystalline ferrite" funded by Nalanda Open University(**NOU**), Patna. This project was sanctioned for a period of one year (14th March 2008 to 30th April 2009) by Nalanda Open University Patna(This University named on **ancient Nalanda University** and established by act of Parliament/ State legislative council) under Prof. Asheshwar Yadav, Principal investigator- cum chief co-ordinator, School of pure Sciences, P.G Section, **NOU (Former Vice Chancellor, B.R.B.U, Muzaffarpur, Prof. Of Physics, Patna Univ, Science College and presently Director, V.V. Ins. Of Technology, Purnea).**

#. **Master Resource Person training programme of International Year of Physics(IYP) , International Year of Astronomy(IYA), Proclaimed by UNESCO and Producing a module for Science teachers: How appreciating Physics in daily life**

Year 2005 was declared as **International Year of Physics(IYP) by united nations**. This year marks the theory of relativity: Special and general- has stood the test of time for a century now and remains one of the greatest creation of human mind that help us to understand nature in the proper perspective. The **IYP** also marks the centenary of the golden decade(1895-1905: Modern Physics) in which momentous discoveries in Physics were made. In the same year Albert Einstein's seminal paper entitled " on the electrodynamics of moving bodies" appeared in Annalen der Physik in 1905. Importance to celebrating the year of Physics is, so celebrating celebrating 100 year of the golden decade and offers great opportunity to communicate the basic Scientific aspects of these discoveries and how they have shaped our lives, promotes the method of science and spread a scientific outlook among the people. Similarly **Year:2009** was declared as **International Year of Astronomy(IYA) by united nations**. In this year we celebrate a momentous event, the Astronomical use of a telescope by Galileo in 1609, an invention that initiated 400 years of incredible Astronomical discoveries; and pay homage to one of the greatest of scientists. Indeed, Galileo telescope triggered a scientific revolution, which has profoundly affected our world view. At the same time, we celebrate yet another momentous event- the publication of the first two laws on planetary motion by Johannes Keplers in 1609 . **the Total Solar Eclipse, the largest celestial drama of this century** was occurred on **22 July 2009** ,in the same year

I have been nominated as a **Master Resource Person of International Year of Physics(IYP) and International Year of Astronomy(IYA)** by BCST-DST, Govt. of Bihar and Science for Society, Bihar, Member, NCSTC-New delhi and spread the aim and objective message in a Colleges/ Institutes of state Bihar on following things to keep in mind

"To assimilate, all human beings realize the impact of Basic Science & Research and Astronomy, Relevance and contribution of Einstein, Modern Physicist, Galileo, Aryabhata, Keplers and quantum world on our daily lives and understand better how scientific knowledge can contribute to a more equitable and peaceful society through Lecture, workshops, and Scientific activities"

As a Senior Resource Persons(SRP)of Prof. H.C.Verma IIT Kanpur one **Research Exposure** and one **SRP workshop** in a year on experiment based teaching methodology was organized in different parts of country. I used to participate and help to organize these session from Year.2008 to 2010. at St. George College Agra, Nanotechnology Application centre, Univ of Allahabad Panjab Univ Chandigarh, Centre for Development of Physics Education, Univ of Rajsthan, Jaipur respectively. The third SRP's Meet was going to be held at Science College, Patna University in 4-6 June 2011 in which I going to conduct this workshop as a **Co-Convener**.

#. Devloping module to Communicate Physics in Daily Life and Physics for consumer

Everday, we see around us various phenomenon- at home or outside- that can be explained only by Physics. Once the laws of Physics are understand it becomes very much simple to explain all the observed phenomenon. An understanding of Physics is very much essential for smooth running of our life. We may not have studied Physics hat subject in the classroom but there is need for everyone to understand it, at least the basic laws of Physics that govern our daily life. As a consumer, producers and sellers of commodities also see around us and face various phenomenon t hat can be explained by Physics-leading to informrd production, sale, purchase, use and disposal of products. For example-

- Why do fluorescent tubes consume less power
- Why do we always use a cotton towel after bath to dry out body and never a towel made of nylon or polyster. Etc.

I have participated in a National Workshop on this topic as a Resource person(Expert), at Guwahati in June 2007, invited by NCSTC-DST, Govt. of India

DST-Locked Martin India Innovation growth programme 2011 and 2012

This programme was held at Patna on 19th Jan 2011 and 21st Jan 2012 and its aims to synergise the world of Science and the world of Business by assisting the indian innovators in accelerating their technologies in to global Markets and is to assess the right scientific and the commercial value of your innovation and help you take it the \global market. This Session was organized by: IUSSTF, **Indo-US, Science & Tech Forum**, IC² Institute, **Univ of Texas at Austin, DST** ,Govt. of India

#. Interactive Meet with Nobel Laureates And European & Indian Science Icons

(Host: DST, Embassy of Germany in New Delhi, EU Delagation of EC in India)

Ministry of Science and Technology is devising new measures and initiatives to attract young and bright talents to take up Science education and Research as a career. It is augmenting opportunities for cross border learning to augment innovative scientific research. With a view to deepen interest of Indian youth, a series of programmes are planned. First such interaction is being planned during **India-European Union Ministerial conference on Science** at New Delhi, Feb 07-08, 2007. On this occasion, Nobel Laureates winners and Personalities of Eminence in Science from Europe together with Indian Science icons are being invited for an interactive session with bright, promosing and young Indian Ph.D scholar enrolled in Science & Tech field. A statement of questions being investigated under the Ph.D programme and one page account of your science career goals and aspiration would be of significance in choosing up 500 Indian Ph. D scholars by DST, Govt. of India for the said interactive meet.

I was selected from Bihar to this meet and very energetic and enthusiastic session with :

1. H.E. Dr. APJ Abdul Kalam, President of India
2. H.E. Prof. C.N. Rao, President of Jawaharlal Nehru Centre for Advanced Scientific research Bangalore
3. H.E. Sri kapil Sibbal, Minister of Earth Science and technology, Govt. of India
4. H.E. Dr. Annette Schavan, German Federal Minister for Education and Research
5. H.E. Dr. Janez Potocnik, European commissioner for Science and Research
6. Prof. paul crutzen, Max planck Institute for Chemistry, mainz, Nobel Prize winner in 1995
7. Prof. Bert Sakmann, Maxplanck Institute, Heidelberg, Nobel Prize Winner in 19991 and few others.....

Collaboration / Linkage with academicians/ Mentors

1. **Prof. H. C. Verma, Dept. of Physics, IIT Kanpur**
2. **Dr. Amarendra Narayan, Dept. of Physics, Patna Univ, Science College**
3. **Prof. K.L.Chopra, President Society for Scientific Values, Delhi(Ex-Director, IIT Kharagpur)**
4. **Prof. S.N.Guha, Vice Chancellor, Aryabhata University Patna**
5. **Dr. Chandan Upadhyay, Institute of Technology, BHU**
6. **Dr.R.K.Kotnala, Head, Magnetic Std. Lab, National Physical Laboratory(NPL) New Delhi**
7. **Bibhuti Bikramaditya, Global Chairman, Bbrain Dev. Society**
8. **Prof. S. P. Verma, President, Science for Society, Bihar, former chairman: NCSTC-New Delhi and Univ. Prof. And Head, Physics Dept. Science College, Patna University.**
9. **Prof. Avinash C. Pandey, Nanotechnology Application Centre, Univ. of Allahabad**

Important Conferences/ Seminars/ Symposiums/ Scientific Session Organized

	Name of the Events	Responsible for	Date	Venue
1	National Workshop on Collaborative Research in Basic & Applied Science, sponsored by UGC-DAE-CSR-Kolkata	Convener	9-10JAN-2013	Patna Women's College
2.	Interactive Session with Prof. Yash Pal on " Growth and Trends in Science Education."Org. By- Dept. of Physics, PWC	Co-ordinator		Patna Women's College
3.	UGC-Sponsored National Symposium on ' Emerging Trends in Materials Science'	Jt.Organizing Secretary		Patna Women's College
4.	UGC sponsored National Conference on 'Role of Science and Tech for Developing society'	Organizing Committee member		A.M. College Patna,
5	UGC Inflibnet workshop for Research and Development	Organizing Committee member	18 th March 2011	Patna Women's College
6.	Senior Resource Person of Utsahi Physics Teachers Meet-2011: A group co-ordinated by Prof. H.C.Verma, Dept. of Physics, IIT Kanpur	Co-Convener	4-6 June 2011	Science Collge Patna University
7.	4 th Global Bihar Science Conference, Year-2011 Organized by- BBrain Development Society, Date-	Organizing Committee member	11-13 Feb 2011	L.S.College Muzaffarpur, B.R.B.Bihar university
8.	National Conference on Human Rights and Role of Non-state actors" organized by Dept. of Political Science, PWC	Organizing Committee member		
9.	Motivational Talk on " Indian Science : Yesterdat, Today and Tomorrow " by Prof. H.C. Verma, Dept. of Physics, IIT Kanpur	Co-ordinator	5th Dec 2011	Patna Women'sCollege
10.	International Conference on Science Education & Research (4 th Global Bihar Science Conf- 2010) Org. By- BBrain Dev. Soc.& Gaya College, Magadh University Bodh-Gaya	Organizing Committee member	2010	Gaya College Magadh Univ. Bodh-Gaya
11.	3 rd Bihar Vigyan Congress, org. by- BCST, DST, Govt, Of Bihar,	Steering Committee member	2-5April 2010.	DST-Govt. of Bihar
12.	National Symposium on Contributions and Relavance On S. Chandra Shekhar and Dorothy	National Advisory Member	19 Nov 2010	J.D.college, J.P.University
13.	National Seminar on "Ethics in Science & Technology" , Organized by Science Depts. Of Patna Women's College, Patna University and Society for Scientific values Delhi.	Organizing Secretary	22 Aug-2009	Patna Women'sCollege

Important Conferences/ Seminars/ Symposiums/ Scientific Session Organized

S. No	Name of the Events	Responsible for	Date	Venue
14.	State level awareness on Total Solar Eclipse- 22 July 2009, Largest celestial drama of 21 st Century, International Year of Astronomy-2009, supported by- Vigyan Prasar, Govt. of India, SCERT Patna, Science for Society Bihar, S.K. Science Centre Patna.	Programme Co-ordinator	20-22 July 2009	S.K.Science Centre Patna
15.	Seminar on ‘ The Universe through day and Night sky observations: Citizens’ Perspective’ on the ocagies of International Year of Astronomy-2009, Proclaimed by united nation,	Co-ordinator	18 th Dec 2009.	Patna Women’s College, ate
16.	National Sympoium on “ Climate Change and sustainable development ”, Organized by: Magadh Mahila College Patna, Patna Univ,	Organizing Committee member	23-24 Dec 2009	Magadh Mahila College Patna, Patna Univ,
17.	International Conference on Science Education & Research (4 th Global Bihar Science Conf- 2009) Org. By- BBrain Dev. Soc.& Commerce College, Magadh University Bodh-Gaya	Organizing Committee member	2009	College of Commerce Patna
18.	Sweden- India Scientist Interection meet on Nanomedicine	Organizing Committee member	17 th Jan 2008	Patna Medical College
19.	National Symposium on “ Lelavance an Contributionsof H.J.Bhabha, J.C.Boss and Charles Darwin on his birth centenary ” ,	Organizing Committee member	30 th Oct 2009	J.D.College Chapra, j.P.Univ,
20.	felicitation programme and deliver a Global chairman message- of Prof. Lee Hoon taek and his five member team, a well known Scientist and director of organresearch centre, Konkuk University, Seol, South Korea for making him member of Global scientific Council of Bihar Brain.	Organizing Committee member	21 Dec 08,	Patna
21	UGC sponsored National Conference on “ Nanoscienceand Nanotechnology for the development of Bihar ”. Organized by B.S. College Danapur, Patn	Steering Committee	18-20 April 2008.	B.S.College Danapur
22.	UGC Sponsored National Seminar on “ Applications of Nanoscience and Nanotechnology	Jt.Organizing Secretary	12th Sep 08	PWC
22.	Inter University essey contest on “Indo-U.S nuclear deal is in India’s interest”	Coordinator	22 Sep 2009	PWC
23.	ic Scientific foresight-2008, Global Symposim ocontemporary Science and Technology Organized by- Dept. of Scienceand Technology, Govt. of Bihar	Organizing Committee member	19-21, December 2008,	S.K.Memorial Hall Patna

24.	six day state level Physics Learning Camp for B.Sc student (Physics Hons) at Patna Science College, Organized by- NCSTC- DST, Govt of India and Science for Society Bihar,	as a Co-ordinator	4-10 th Nov 2006.	Science College Patna University
25.	national level Essey on “ Use of mobile phone – A revolution in communication”,	Coordinator	13 th Jan- 2005.	PWC
26.	National Graduate Physics Examination (NGPE) of Indian Association of Physics Teacher (IAPT), Regional Council Bihar and Jharkhand .	assistant Coordinator	2006-07	Patna
27.	the National level Essey competition member on “ Milestone in the development of modern Physics ”, Date-	CO-ordinator	19 th Sep 2005.	PWC
28.	Film show on “ Einstein- Magical Year ”, A contest on “ Verdict on Pluto-not a planet ”, Film show on “ Anant Yatra	Co-ordinator	2 nd Aug. 2006. 21 st Sep. 2006. 29 th Nov 5.	PWC
29.	Bihar Vigyan Congress. Organized by:- BCST, Govt of Bihar	Organisation Committee member and Editorial board member	28-29 Feb 07	BCST-DST, Govt. of Bihar
30.	“ Vigyan ke teen sopan ” Khoj, Sodh Aur Bodh , A Countrywide Programme on Science and technology popularization built around an exhibition train – Science express (A journey in to the future of Scientific discovery) at Patna. This Science express train was developed by German Plank Society, Govt. of Germany and DST, Govt. of India, Organized by :- NCSTC-DST, Govt. of India, Science For Society Bihar.	Coordinator	2-29 December 2007	Patna Dist. Railway station Useful for UG PG, Ph.D level students and Faculty member
31.	Appointed as a in Science exhibition (+2 Level),	Chair of Judges	Date- 24 th Dec 2005	B.D. Public School, Patna
32.	Thrill of Scientific research at nanoscale- Scientific session	Coordinator	2 nd Dec 08,	PWC

Additional Consultancy/Extension services offered

1. Conducting **M.Sc** teaching in NanoPhysics , Statistical Physics and experimental Physics as a Visiting faculty at Nalanda Open University ,Patna, in academic session in 2007-08, 2008-09 , 2010-2011 and 2011- 2012 for M. Sc , 5th and for 6th Year
2. Teaching as a Visiting faculty to 1st year course of **Engineering graduate** students of vidyadaan Institute of Technology & Management, Arion, Buxar, Bihar under Aryabhata Knowledge university Patna in academic session 2010-2011, 2011-2012
3. Participated as a member of the **Evaluation Team** for 18th , 19th , and 20th National Children Science Congress, Bihar State on 16th Nov. 2011, organized by- Science for Society Bihar, Member, **NCSTC-Delhi. This Science Congress was catalyzed by DST-Govt. of India**
4. Conducted the Science Exhibition as one of the **Judges for evaluating the Science projects** at D.A.V School, Patna, B.D.Public School Patna in academic session, 2010-2011, 2011-2012.
5. **Syllabus committee member of Bihar School Examination Board-Higher Secondary level**, Patna on 29th Sep 2011 and examiner of examined copies of I. Sc exam-2012
6. Participated as a member of the **Evaluation Team** for 39th Jawahar Lal Nehru Science Exhibition-2011-12 for Child Scientist , Bihar State on 11th Nov. 2011, Organized by- **State Council of Educational Research and Training(SCERT), MHRD, Govt.of Bihar**
7. As a **Master Resource Person** of **International Year of Physics-2005**(Proclaimed by United Nation) **International Year of Astronomy-2009**(Proclaimed by United Nation) and **Senior Resource person** of Utsahi Physics Teachers, Coordinated by **Prof. H.C.Verma, Dept. of Physics, IIT Kanpur,** Compaigaining **in Revitalization of Physics Education** across the country India

Conferences attended : International

1. International Conference on **Magnetic Materials and their Applications for 21st Century**, at National Physical Laboratory(NPL) New Delhi and, **Date- 21-23 Oct 2008**
2. International Conference on “**Human values and Ethics in the global scenario**”, **Bangalore**, Organized by- The Art of Living foundation India, Date- 17-19 Feb 2009
3. 1st Global Bihar Science Conference at Science College, Patna University, Organized by- Bbrain Devlopment Society, Catalyzed and supported by- **Patna University**, Date-5-7 May 2008.
4. 2nd Global Bihar Science Conference at Commerce College, Magadh University, Organized by- Bbrain Devlopment Society, Catalyzed and supported by-Magadh University, Bodh-Gaya, Date-30 Jan – Feb 1,2009
5. International Conference on “**Recend Trends in Life Sciences Researchers I, Natural resources management, sustainable Devlopment and Human welfare**”, Date- 27-29June 2009., Venue- Vinoba Bhave University Hazaribagh.

Conferences attended: National Level

6. UGC sponsored National Conference on “**Environmenal education for sustainable life style**”, venue- **Patna Women’s College (Patna Univ)**, Date- 10-11 Feb 2006.
7. **National Conference on “Convergence with Physics”** at SNTI Auditorium **Jamshedpur** (Jharkhand), Organized by- Deptt of Physics, Jamshedpur Women’s College (Ranchi Univ), Date-10-11 Oct 2006.
8. “**Technical discussion on different aspects of Physics**”, Venue- **P.G Deptt of Physics, L.S. College Muzaffarpur**, Organized by- Scientific Technical and Vocablurry Commission, **Ministry of HRD, Deptt of Higher education, Govt of India**, Date- 15-17 April 2008.
9. MSI, UGC and DST Sponsored National Conference on “**Nanomaterials and Nanotechnology**” at Deptt of Physics, **University of Lucknow**, Date- 08-10 December 2007
10. **UGC and DST** sponsored “**Recent trends in Condensed Matter Physics**”, 28-29March 2007, Organized by- University Deptt of Physics, **Bhagalpur University**
11. **National Conference for Senior Resource Person Of Utsahi Physics Teachers Group, IIT Kanpur Project, 7-9 June2010, Panjab Univ Chandigarh**
12. **3rd Bihar Vigyan Congress, 2-5 April, 2010, DST, Govt. of Bihar**

Workshops/ Seminars/ Symposiums Attended: International

11. International Workshop on “**Frontiers in Nano-biotechnology**” at Allahabad University, Organized by- **University of Allahabad**, Date-1st Dec 2006.
12. International Seminar on IPPNW south Asian Regional Seminar for **Peace and Development** (**60th Herosima and Nagasaki day**), Venue- L.N. Mishra Institute, Patna, Date- 6-9 August 2005, Organized by- Indian Doctors for Peace and Development- Bihar Chapter(IDPD).
13. **Scientific foresight-2007**, A Global Symposium on contemporary Science and Technology, Date- 22-24 December 2007, Organized by- Department of Science and Technology, Govt. of Bihar
14. **Scientific foresight-2008**, A Global Symposium on contemporary Science and Technology, Date- 20-22 December 2008, Organized by- Global Bihar Group
15. **Sweedan – India Scientist Interaction meet on Nanomedicine** at Patna Medical College , Date-15th Jan. 2009 Organized by- DST, Govt. of Bihar and Bbrain Development society.

Workshops/ Seminars/ Symposiums Attended:National Level

16. A **National Seminar** on “**Relavance and dimension of Nanotechnology for the development of Bihar**”, Venue- Patna, Organized by- Marwari Siksha Samiti, Patna, Date- 10th Feb2007.
17. **UGC sponsored National Seminar on Atomic and Molecular Physics**, Venue- University Deptt of Physics, J. P. University Chapra, Date-15th March2007.
18. National Workshop on **Innovative Physics Teaching at I.I.T Kanpur**, organized by- Vigyan Prasar, Govt of India, Deptt of Physics I.I.T Kanpur, Date-8-14June-2007.
19. National Workshop on **Innovative Physics Teaching at I.I.T Kanpur**, organized by- Vigyan Prasar, Govt of India, Deptt of Physics I.I.T Kanpur, Date- 15-21 June-2005.
20. National Workshop on **Innovative Physics Teaching at St. George College Agra**, organized by- Vigyan Prasar, Govt of India, Deptt of Physics I.I.T Kanpur, Date- 29-31May 2009
21. National workshop on carrier counselling and training in **science and engineering** at Jagdamb College Chapra(J.P.Univ), Date- 8-10 Oct 2007.
22. Participated in **one day seminar on Nobelprize in Physics -2007** at Deptt of Physics, Science College Patna, Date- 3rd Nov 2007.

23. Participated as **Resource Person in National workshop to produce a module on Appreciating Physics in everyday life and Physics for Consumer at Guwahati**, Date –13-15 June 2006, **Organized by- NCSTC-DST Govt of India and DST, Govt of Assam.**
24. **National Workshop in Innovative Physics Teaching** at D.P.S Patna, Date- 17-22 June 2006, Organized by- Takshila education Society and Anvesika-Kanpur (IAPT).
25. **“Master Resource Person Training Programme of World Year of Physics”** at Institute (I.O.P) of Physics **Bhubeneshwar (Orissa)**, Eastern Zone (National level), Date-6-9 August 2005.
26. Participated as a Delegates in U.G.C. Sponsored National Seminar on **“Plastic Waste – A Hazard to Environment, A Boon for road strength”**, Date- 23rd May 2008, Venue- Deptt of Chemistry, College of Commerce Patna, Magadh University Bodh-Gaya.
27. Participated in Training Programme on **“Preparation of Self learning materials: Methods and Strategies”**, Date- 30th March 2008, Venue- Nalanda Open University Patna.
28. Participated as a resource person in a programme **“ Identification and nurturing of Talents in Science education**, Date- 13th Sep 08, Venue- Deptt of Physics, Patna Womens College, Patna University
29. Participated in a workshop on **“ Relavance and contributions of Lev Landue**, Birth centenary year celebration, J.D.College, Jayprakash Univ Chapra, Date- 20-21 Nov 2008.
30. National seminar on **“Nanomaterials in Cancer treatment”** at Mahavir Cancer Institute Patna, Date- 1st March 2009
31. **Master Resource person of International Year of Astronomy- Total Solar Eclipse, 22nd July 2009**, G.B. Pant University, Amritsar, Date- 30 June-2 July 2009.
32. Participate as a delegate in **“ Stand up and Speak out programme”** of United nation and The **Art of Living foundation against poverty and for the behavior development goals**. Place- Patna. Date- 16-17 Oct 2007, Organized by :- The Art of Living Patna & Unicef .

Paper presented: International Level

1. Ni-Zn ferrite Nanoparticles and their applications,” Presented in International Conference on **magnetic materials and their applications for 21st century**, at **National Physical Laboratory (NPL)** and, Date-21-23 Oct 2009.
2. **Magnetic Nanoparticles in Biological Sciences: a review**,” Presented in international conference on recent trends in life sciences researchers I, **natural resources**

management, sustainable Development and Human welfare- 27 June 2009, Vinoba Bhabhe University, Hazaribagh,

3. Zinc ferrite nanoparticles synthesis and characterization presented in 1st **Global Bihar Science conference**, 9 May 2008, Venue- Science College, Patna university
4. **Photo luminescence behavior ferrite nanoparticles**, presented in 2nd Global Bihar Science Conference, 30 Jan-1 Feb, Venue- College of Commerce, Patna, Magadh University.

Paper presented: National Level

5. **“Some possible Technological application for Nanocrystalline Ferrites”**
Synthesized through chemical route, Presented in 2nd Bihar Vigyan Congress, Patna (26-28 Feb, 2007) .
6. “X-Ray Diffraction- an investigation tool for Nanomaterials”, Presented in UGC Sponsored National UGC- Conference on Convergence with Physics, **Jamshedpur**,
7. Synthesis of ferrite Nanoparticles through citrate Precursor Technique, presented in UGC behavior, National conference on condensed Matter physics, deptt. Of Physics, **Bhagalpur University** (March28-29, 2007).
8. “Structural and Magnetic Behaviour of Cobalt Ferrite nanoparticles prepared using chemical route,” presented in **UGC sponsored National Seminar on Applications of Nanoscience and Nanotechnology** at Patna Women’s College, Patna university, Date- 12th Sept, 2008.
9. **“Today’s technological Innovations owe their genesis to Landau’s Theories,”** presented in National Workshop- UGC Sponsered, Jay Prakash University, Chapra, 22 Nov 08
10. Presented chart and display model on “nanotechnology” (Man made and natural) at Gandhi maidan, patna for **Public awareness about nanotechnology on the occasion of Republic day (26th Jan2006)**, ehavior by- BCST- Govt. of Bihar.
11. “Ni-Zn Ferrite Nanoparticles: Synthesis and characterization, Presented MSI, UGC and DST Sponsored National Conference on “Nanomaterials and nanotechnology” at Deptt. Of Physics, **University of Lucknow**, date-10 december 2007.

Educational Qualifications:

S . No	School/ College/ Univ	Examination	Subject	Percentage of Marks	Division	Year of Passing
1	Nalanda Open University, Patna	Post-Doc	Ferrite Magnetic Nanomaterials.	-	-	2009
2	Patna University Science College	Ph. D	Ferrite Magnetic Nanomaterials.	-	-	2008
3	A.N. College, Patna 'A'-Grade by NAAC-UGC and CPE status by UGC * Magadh Univ, Bodh-Gaya	M. Sc	Physics	61.25	First	2003
4	A.N. College, Patna 'A'-Grade by NAAC-UGC and CPE status by UGC Magadh Univ, Bodh-Gaya	B. Sc	Physics	55.1	Second	1999
5	M.S. College, Bhagalpur B.I.E.C, Patna	I. Sc	Phy,Chem, Math, Eng,Hn	69	First	1994
6	U.N.H.School Vidyapuri, Purnea B.S.E.B, Patna	Matriculation	N.Sc,S.Sc, Math,Eco, Snk,Hn	64.5	First	1992

Worked as an Assistant Professor at Dept. of Physics, Patna Women's College, Patna University since Aug 04. (A'-Grade by NAAC-UGC with CGPA 3.51 out of 4 and CPE status by UGC)

* **Pre-Doctoral Research:** from **April 2003 –Oct 2004:** Woked on Chaos and Astro – Physical Jet,at Dept. of Physics, Patna University.

* **Doctoral research:** I did my Ph. D on the topic “Study of magnetic behavior of Some Nanocrystalline ferrite” from Patna University in May 2008 (Reg. Feb 2005) under the supervision of **Dr. Amarendra Narayan, Dept. Of Physics, Patna University, Science College.** I worked in collaboration with **Prof. H.C.Verma, Dept. Of Physics, IIT Kanpur, Dr. R.K.Kotnala, Head, Magnetic Std. Lab, National Physical Laboratory(NPL) New Delhi, Prof. Avinash C.Pandey, Nanotechnology Application Centre, University of Allahabad and Dr. Chandan Upadhyay, Institute of Technology, Dept. Of Materials Science, I T, B.H.U.**

** **Post-Doctoral Research:** I worked as a **Post-Doctoral Research** Fellow in Project titled “ Study of magnetic ehavior of Some Nanocrystalline ferrite” funded by Nalanda Open University(**NOU**), Patna. This project was sanctioned for a period of one year (14th March 2008 to 30th April 2009) by Nalanda Open University Patna under Prof. Asheshwar Yadav, Principal investigator- cum chief co-ordinator, School of pure Sciences, P.G Section, NOU (**Former Vice Chancellor, B.R.B.U, Muzaffarpur, Prof. Of Physics, Patna Univ, Science College and presently Director, V.V. Ins. Of Technology, Purnea**). This University named on **ancient Nalanda University** and established by act of State legislative council.

CPE- College with Potential for Excellence and NAAC- National Assessment and Accreditation Council- UGC, India

Details of Employment

S. No	Institute	Position held	Nature of duty*	Date of Joining	Date of Leaving	Additional remarks
1.	Patna Women's College** Patna University 'A'-Grade by NAAC-UGC and CPE status by UGC	Assistant Professor	1. Teaching, Learning & Evaluation, and Co-Curricular activities 2. Conducting Research project under College with Potential for Excellence (CPE) and Basic Scientific Research (BSR) Scheme of UGC, India	Aug 2004	2 nd Sep 2013	1. Actively involve in Teaching-learning & Evaluation, Co-Curricular activities and guiding (UGC-Sponsored) research projects. 2. Engaging Counseling and consultancy services in a state and outside too

- **Teaching-Learning & Evaluation and Co-curricular activities Includes:**

Teaching (Theory and Practical Classes), organizing seminars, symposium, guest lectures, workshops . Sports, Alumnae meet, Cultural activities, College day, Annual day, Research journal, Film shows, paper presentation, Revitalize Physics education through low cost/No cost experiments, Guiding research project under CPE & BSR scheme of UGC, India, various core committee member such as **Quality enhancement Plan**, Dept. of safety monitor/ safety officer, GES classes and examination duty etc. These activities develop critical attitude and clear comprehension while dealing with their subjects, not only in the classroom but outside as well. Also these curricular drilled our students and disciplined to face the challenging society in every respect.

CPE and BSR Research Project: To promote the Scientific Research culture, UGC has initiated Research Project oriented Science education in CPE status Colleges with 'A' Grade Institution of India. In this Scheme selected students studying in B.Sc final year are allowed to do research project to Explore their potential, to stimulate genuine interest in Science and infuse creativity and Scientific temper. I have supervised total **16 research project from 2004 to 2012** at Patna Women's College (Work reported in Reviewed Journal Explore and IRIS)

** Patna women's College is Constituent unit of Patna University is 'A' Grade institution with a cumulative Grade point average (CGPA) of 3.51 out of 4 and also College with potential for excellence status (CPE) status accorded by UGC, was established in 1940. This institution functions through a multitier system of organization that includes: The management, The Governing Body, The principal etc. The governing body is the highest decision making body and is strictly vigilant and performs a supervisory role in the governance of the institution. The Principal functions at the head as the overall coordinator and centre of authority.

#. Field of Specilization:

Ferrite Magnetic Nanomaterials & Revitalization of Physics Education through Low cost/ No cost Experiments (+2, UG and PG level)

Worked as a Assistant professor in the Deptt. of Physics, Patna Women's Collage from Aug.2004 Aug.2013

Engaged as Resource Person/ Appointed : In Workshop

S. No	Name of the Events	Date , Time, Place	Organized by, Sponsored by	Topic
1.	National Conference on Nano-Biotechnology	20 th June 2012, 10.a.m-11.am, Patna	Mahavir Research Institute, Phulwarisarif, Patna	Multifunctional Magnetic Nanoparticles in Biological Science
2.	Regional Workshop for Teachers of Eastern Bihar for 20 th Children Science Congress	8 th June 2012 12-2.00 p.m Khagaria-Dist, Bihar	Science for Society, Bihar, NCSTC-DST, Govt. of India	Energy Resouce: Explore, Harness and Conserve
3.	Innovation in Science persuit for Inspired Research(INSPIRE)	16 th June 2012 10-11.30 a.m J.D.College, J.P.Univ, Chapra	J.D.College, J.P.Univ,Chapra, DST-Govt. of India	Science Education and Global Personality
4.	Kilkari: Nuture Young Brain in Scientific creativity, Expert as a Judges in National-East Zone, India	8-9 Sep 2011	Kilkari, MHRD, Govt. of Bihar	Learning Science through Hands on Experience
5.	Nuture B. Sc Physics students for Higher studies and Research	11 th Dec 2011	Magadh Mahila College, Patna University	Nuturing and identification of B. Sc students in Higher Education and Research
6.	State level Workshop for Teachers of district of Bihar of 19 th Children Science Congress	23 Oct 2011 Regional Secondry School Madhubani, Bihar	Science for Society, Bihar, NCSTC-DST, Govt. of India	Innovation in Science persuit for Inspired Research(INSPIRE)
7.	In UGC Refresher Course in Physics for College/ University Teachers	9 Feb 2010	UGC Academic staff College Patna University	Photoluminiscent properties of Ferrite Nanomaterials
8.	National Science Day- 2012 & 2011	28 th Feb 2011 28 th Feb 2012	Simultalla Resedential School of MHRD, Govt. of Bihar Dist- Jamui	Finger Print of the Universe and national Science Day
9.	National level Summer School Training Programme for Teachers Of Govt. Engineering Colleges	27 th June 2008 National Institute of Technology (N.I.T) Patna	National Institute of Technology (N.I.T) Patna	Talk on "Growth, Characterization and Applications of Ferrite Nanoparticles"

Engaged as **Resource Person/ Appointed: In Workshops**
